

AIR POWERED TORQUE WRENCH PUMPS

AP1000R - Pneumatic

AP1000R - High Flow - High Speed for Heavy Duty Application

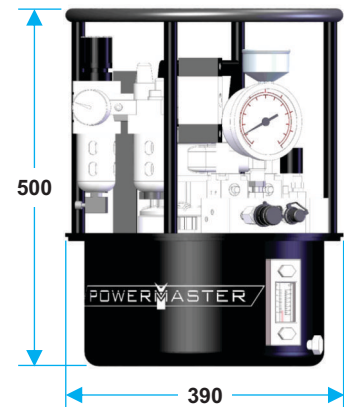

- All new high efficiency pump design.
- Ultra high performance.
- Durable, Lightweight and strong.
- Long life low maintenance.
- Integrated heat exchanger.

Special Features :

- Durable and lightweight
- Ultra high performance capable of operating single or multiple tools in parallel.
- Industry leading performance from hydraulic pump, providing optimum performance for hydraulic torque wrenches with power and speed.
- Heat exchanger cools the oil and warms exhaust air to prevent freezing.

Operating Benefits :

- Long life.
- Low maintenance.
- High reliability.
- Available dual pressure gauge psi and bar.

Resvr. Size (Gal)	Valve		Motor Specifications	Flow Rate @ 70 cfm/ 90psi		Weight	
	Control	Type		600 psi	10,000 psi	kg	lbs
2	Solenoid	3 Way/2 Pos.	Heavy Duty 4 HP Air Motor	11 lpm	0.9 lpm	28	62

Retract pressure is preset at 1,300 PSI.
Dimension : 390 mm x 500 mm
