

EP-1000-EX- Electric (Flame Proof)

EP1000EX (Flame Proof) – High Flow – High Speed for Heavy Duty Application

- 3 phase 440V motor, applicable to explosion proof occasion.
- Atex certified motor.
- Cool running continuous duty axial piston pump.
- Oil tank with an excellent cooling system provided for longer and continuous working hours.
- Flameproof enclosure motor housing and electronics.
- Autostop feature stop pump automatically while not use for 10 sec.
- Starts under full load
- Runs on reduced voltage.
- Quiet operation.(Approx 80dBA @10000 PSI)
- Easily adjustable pressure control knob.
- Auto dump relieves oil pressure from hoses.
- 2 gallon oil reservoir.
- Precise PSI/BAR pressure gauge.
- Quick connect no drip couplers with a safely locking collar.
- Supplied with dual non-conductive high pressure hose with couplers.

Resvr. Size (Gal)	Valve		Motor Specifications	Flow Rate		Weight	
	Control	Type		600 psi	10,000 psi	kg	lbs
2	Solenoid	3 Way/2 Pos.	1.5 HP THREE PHASE	11 lpm	0.9 lpm	90	198

Retract pressure is preset at 1,300 PSI.
